PROFILE

Motivated Software Developer fresher with hands-on experience in HTML, CSS, JavaScript, React, and Automation, specializing in building responsive and intuitive web applications. Adept at converting complex requirements into clean, reusable components and enhancing user experience through thoughtful UI design.

EXPERIENCE

Outcoach

Software Intern

Feb. 2026 - Present

Worked as a Software Intern at Outcoach, contributing to frontend development, API integration, data processing, UI improvements, Automation and responsive web application development using Playwright, React.js, JavaScript, HTML, and CSS

- Built and improved frontend features using React.js, JavaScript, and REST API integrations for scalable web applications.
- Supported automation, testing, and data-processing workflows to enhance product quality and operational efficiency.
- Utilized AI-assisted development tools and collaborated with cross-functional teams to deliver reliable, production-ready features.

Zidio Development

Web Development

Sept. - Oct 2025

Completed a Web Development Internship focused on frontend development, responsive UI design, and real-world web application workflows. Worked closely with developers and mentors to build scalable and user-friendly web interfaces while gaining practical experience in modern development practices.

- Collaborated with senior developers and cross-functional teams to build and refine a production-ready web application under mentor guidance.
- Implemented responsive UI components and frontend logic while following industry best practices.
- Supported deployment and release processes, gaining end-to-end development and production experience

PROJECT

E-Commerce Website (Novel Silks) - Freelance

- Developed a responsive e-commerce website for a silk clothing brand with clean UI/UX and smooth navigation
- Implemented product listings, category pages, and detailed product views for better user experience
- Optimized site for performance, mobile responsiveness, and cross-browser compatibility
- Delivered the project end-to-end as a freelancer using React.js, JavaScript, HTML, CSS, and Tailwind CSS
- www.novelsilks.com
