VELALAR COLLEGE OF ENGINEERING AND TECHNOLOGY

Graduating May 2026

- B.E. in Medical Electronics
- GPA: 8.4

VELALAR VIDYALAYAA SECONDARY SCHOOL

2019 - 2022

HSC: 74% SSLC: 79%

PROJECTS

Course Discovery & Learning Platform

- Developed a course browsing web application that allows users to explore multiple courses through a structured, easy-to-navigate interface.
- Displays course details such as title, description, and category using clean card-based layouts for better content clarity.
- Implemented a responsive design to ensure seamless usability across desktop, tablet, and mobile devices.
- Designed intuitive navigation and layout flow to help users quickly scan, compare, and understand available courses.
- Focused on UI/UX best practices including spacing, typography, and visual hierarchy to improve readability and user engagement.

Patient Monitoring Dashboard

- Displays patient vital information through a clean, dashboard-style interface designed for continuous monitoring and quick visibility of key health parameters.
- Presents multiple patient metrics using visual indicators and structured sections, allowing users to easily track status changes at a glance.
- Simulates real-time data updates through dynamic UI rendering, demonstrating how monitoring systems present live information in healthcare environments.
- Structures patient data with a clear visual hierarchy for easy navigation across devices.

EXPERTISE

- React
- MySQL
- C

SKILLS

- React Component Development
- API Integration
- Frontend Debugging & Testing
- Version Control (Git & GitHub)
- Cross-Device Compatibility
- C Programming Fundamentals
- Linux Command-Line Operations

EXPERIENCE

Zidio Development - Web Development

Virtual | Sep - Oct 2025

- Collaborated with senior developers and cross-functional teams to build and refine a production-ready web application under mentor guidance.
- Implemented responsive UI components and frontend logic while following industry best practices.
- Integrated frontend modules with backend services and resolved UI issues through testing and debugging.
- Supported deployment and release processes, gaining end-to-end development and production experience.
